GUEST LECTURES

Session 2017-2018

“RTI”

The Department of Computer Science & Engineering of G. H. Rasoni Academy of Engineering & Technology, Nagpur had organized a Guest Lecture on “ Right to Information (RTI) “ for students of 3rd semester BE on 28th July 2017.

The expert was Mr. Bhushan Shriwas, a RTI Activist & Social Worker from Nagpur. He gave basic information about RTI Act like how to file RTI? When to file RTI? and explained its importance for the welfare of society. He shared his own experience with the students by showing & analyzing his previous RTI cases. The guest lecture concluded with question answering session in which all the doubts and queries arose by students were cleared by the expert. Students were immensely benefited by the knowledge and experience shared by the expert.

The session was coordinated by Prof. Vikrant Chole under the guidance of Principal, Dr. Sanjay L. Haridas & Prof. Sonali Bodkhe, HOD CSE.

Department of Computer Science and Engineering

“Language Processor”

The Department of Computer Science & Engineering of G. H. Rasoni Academy of Engineering & Technology, Nagpur had organized a Guest Lecture on “Language Processor” for students of 7th semester BE on 21st September 2017.

The expert was Dr. Narendra Choudhari, HOD CSE dept. DBACER, Nagpur. He explains the concept of Syntax Directed Translation Scheme. How to solve SDTS numerical and draw the annotated parse tree, what are semantic rules & actions? He also stated the difference between SDD & SDTS for mixed mode assignments, control structures with logical operations. The guest lecture concluded with question answering session in which all the doubts and queries arose by students were cleared by the expert. Students were immensely benefited by the knowledge and experience shared by the expert.

The session was coordinated by Prof. Minakshee Chandankhede under the guidance of Principal, Dr. V. Kapur & Prof. Sonali Bodkhe, HOD CSE.

Department of Computer Science and Engineering

“IoT (Internet of Things)”

Promising to transform the ways we live, work, and play, the Internet of Things (IoT) offers impressive benefits but presents significant challenges. Today billions of devices are connected to the Internet in what we call the “Internet of Things” or “IoT”. These devices are already transforming our lives, but as they do, there are also serious challenges that must be addressed to maximize the potential benefits.

To facilitate the students to front with the current technology a guest lecture was recently organized by Department of Computer Science and Engineering of G.H. Rasoni Academy of Engineering & Technology for 2nd & 3rd year students. The main purpose was to facilitate the features and applications of IoT which is nowadays booming in rapid manner in market & students must upgrade themselves.

The Lecture was delivered by Mr. Krunal Kalbende an expert from IIT Kharagpur, Nagpur. About 75 students attended and were benefitted from the program. Prof. Satish Pusdekar organized the event under the guidance of Dr. Sonali Bodkhe (H.O.D.).
